

**The First Nordic Symposium**  
**Pancreatic cancer**  
**Improving Diagnosis, Treatment and Care**  
**2 september 2022 – Store auditorium Herlev Hospital**

08:30 – 09:00            Registration  
                                 Coffee and light breakfast  
09:00 – 09:10            Welcome and review of the program

**Diagnosis of Pancreatic Cancer, moderators Peter Vilmann & Anders Toxværd**

09:10 – 09:40            Screening and early diagnosis of pancreatic cancer  
                                 Stephen Pereira, UK  
  
09:40 – 10:00            Endoscopic ultrasound guided biopsy in the diagnosis of solid and cystic  
                                 pancreatic lesions  
                                 Peter Vilmann, Herlev Hospital  
  
10:00 – 10:20            Nuclear medicine in pancreatic cancer- new perspectives  
                                 Andreas Kjær, Rigshospitalet  
  
10:20 – 10:40            Coffee break & visit company booths

**Pathology/translational analyses, moderators Jane Preuss Hasselby & Inna Chen**

10:40 – 11:00            Diagnosing pancreatic cancer – challenges and possibilities, pathologists  
                                 view  
                                 Jane Preuss Hasselby, Rigshospitalet  
  
11:00 – 11:20            Liquid biopsies: Complementary biomarkers for precision medicine in  
                                 pancreatic cancer  
                                 Stig Bojesen, Herlev hospital  
  
11:20 – 11:40            Clinical Relevance of Serum proteins  
                                 Sidsel Christy Lindgaard, Herlev hospital  
  
11:40 – 12:10            Molecular mechanisms of cancerogenesis and therapeutic targeting in  
                                 the pancreas  
                                 Parco Real, Spain  
  
12:10 – 13:10            Lunch & visit company booths

## Treatment, moderators Carsten Palnæs Hansen & Benny Vittrup

- 13:10 – 13:25                    Are there any new perspectives in Surgery?  
Jan Storkholm, Rigshospitalet
- 13:25 – 13:55                    Treatment options for pancreatic cancer – Challenges and future perspectives  
Inna Chen, Herlev Hospital
- 13:55 – 14:15                    Endoscopic ultrasound guided therapy in patients with advanced pancreatic cancer (Internal bile duct drainage, celiac plexus neurolysis, ablation)  
Bojan Kovacevic, Herlev Hospital
- 14:15 – 14:45                    Coffee break and visit company booth
- 14:45 – 15:05                    Pancreatic cancer - novel targets and therapies from a phase 1 perspective  
Kristoffer Staal Rohrberg, Rigshospitalet
- 15:05 – 15:25                    Specialized palliative care for patients with pancreatic cancer in Denmark.  
Kristoffer Bastrup-Madsen Marså, Arresødal Hospice
- 15:25 – 15:55                    Pancreatic cancer – state of the art  
Eric Van Cutsem, Belgium
- 15:55 – 16:05                    Life Story  
Patient experience
- 16:05 – 16:15                    Summary and closing remarks  
The steering committee
